Terrible Disaster at Sea.

LOSS OF THE UNITED STATES
WAR STEAMER "ONEIDA."She is run down by another
steamer in Japanese Waters.

LOSS OF FIFTY LIVES.

(Associated Press Dispatch.)

San Francisco, March 1.—The ship "Ben-

edict" arrived from Yokohama, Japan, to-

day. She brings full particulars of the loss of

the steamer "Oneida," which left Yokohama on

the 23d January. The steamer quitted her

anchorage at 6 o'clock in the afternoon

and the officers were at dinner, above

deck. The look-out man shouted, a steamer's

light ahead, and a palladium gave the order

to port the helm. Everything seemed quiet

on board the steamer. This leads to the

belief she had not observed the "Oneida," although

her lights were burning brightly. The steamer

which proved to be the "Oneida," came right

on and struck the "Oneida" on the starboard

side, about the middle of the ship was visible.

The two men standing at the wheel were

killed. The "Oneida" did not stop

after crashing through the "Oneida," though

the guns of the latter, which happened to be

fired, were almost immediately disabled and

the steamer was obliged to stop. The

steamer was then seen to be on fire and

Singular Story of Good Fortune.

A YOUNG MARRIED LADY LEFT \$10,000 BY HER HUSBAND'S UNCLE IN GERMANY.

An exemplification of the old proverb that it is better to be born lucky than rich has just come to light in Montreal. The story of a young married German lady who left her husband's fortune in Germany. They have only been in this country some eight or nine months, and had just got married prior to leaving home. Twenty years ago, the uncle of Mrs. Nider, named Riese, left a fortune of \$10,000 in Germany. They have only been in this country some eight or nine months, and had just got married prior to leaving home. CONSERVATIVE BASKET

London, March 9.—At the Conservative meeting to-day, letters from the Earl of Derby, Mr. Marquis of Salisbury and Lord Lansdowne were read, expressing their unqualified support of the Government. Lord Salisbury, in his reply to a toast, made reference to what he termed the Conservative policy of the Administration towards the Irish. This hit was received with loud applause.

Lord Salisbury responded in the name of what was left of the army. He praised discipline and efficiency would be the same through all time. The policy of the present Government was criticised by all parties. To discontinue the army and reduce its force by 20,000 men was injudicious economy. It was easier to discontinue than to rebuild the army. Happily the country had found a leader, a leader who was not a politician, but a statesman, a leader who was not a politician, but a statesman.

Mr. Belcher responded for the navy, and Mr. Balfour for the volunteers.

The Chairman proposed the health of the leader of the Conservative party, and welcomed the Irish Lord Derby.

Mr. Osborne Hardy, in reply, said the party were in the minority in Parliament, hence all its efforts were being made to defeat the Government. He was faithful to the Conservative party, which was known in all the great centers of trade and manufacture, and was sure of future ascendancy.

Other speeches followed, and the party broke up at a late hour.

BELLEVILLE SATURDAY MARCH 12

RECEIVED AT THE OFFICE OF THE DAILY INTELLIGENCER, BELLEVILLE, ON SATURDAY, MARCH 12, 1870, AT 10 O'CLOCK, A. M.

THE ABORTION CASE.—The request was refused last evening, and after some important testimony had been heard the inquiry was further adjourned until Tuesday.

CLOSED.—The postal message has been put on tonight for the first time since the strike. The message was a communication from the Hon. Mr. McDougall to the Hon. Mr. Macdonald.

HON. MR. MCDONALD.—The Ottawa Citizen of yesterday says: "We understand that the Hon. Mr. McDougall's illness has assumed a more serious phase, and that Dr. VanCortlandt and Dr. Grant have been called in. We sincerely trust that the Hon. gentleman may safely pass the crisis of his disease."

PHOENIX.—The *Admission Book* says: "Messrs. H. B. Rathbun & Son, of Mill Point, are engaged in building an extensive wharf on the south side of the river at Napawan, for the shipment of their lumber to be saved at the Napawan Mills, recently purchased by them. Messrs. Rathbun are pushing him, and will apply very much to the interests of Napawan."

I. P. B.—The *Convent* which this Society intended having on the evening of Saint Patrick's Day, is unavoidably postponed for a few weeks. The Society is determined to make it the concert of the season. We understand that several of our leading amateurs have kindly consented to give their services. As the proceeds are intended solely for benevolent purposes, we have no doubt that it will be largely attended.

PROFESSOR STONE.—After an absence of seventeen years, during which period he has travelled through different parts of the globe, Prof. G. W. Stone is returning as a lecturer on his amusing and interesting biological sciences, which he proposes each evening by philosophical examinations. He has lately visited Montreal, Quebec, and Belleville, in each of which places the press has highly praised his performance. The Professor commences at Ontario Hall, on Monday night, continuing on Wednesday, Friday and Saturday. Go and see him.

MUNICIPAL LAW.—We are glad to learn that Thomas White, Esq., County Clerk, is about to issue a compilation of the Municipal, Assessment and License Acts for the Province of Ontario. As officially printed, the Acts, with recent amendments, were arranged in such a being and unsatisfactory manner, that great pains were required to ascertain what amendments had been made. Mr. White will remedy this defect, and will so doubt be more successful in the different municipalities throughout the country.

SUNDAY SCHOOL CONCERT.—The School of the Rev. Mr. Wild's Church gave a Concert last evening. The audience was large and the exercises very interesting. The School for our readers, the "Provincial" school, having a reputation for a certain sum of money. The proceeds of the concert were to meet the claims of the same. More than a hundred were present, and the public were entertained and the scholars benefited. We understand that this school is in a flourishing condition.

A PENTON RAID.—The Ottawa *Freemason*, of last evening says: "Reliable information has reached us from a gentleman in Chicago, who is well acquainted with the most recent designs of Penton, that he is about to spring upon about 3,000 of the brethren of the Penton River singly and in detached parties, for the purpose of forcibly annexing the territory to the United States. It is further stated that the Penton have been invited to take this action by O'Donoghue, one of the strongest leaders at Winnipeg."

GOAL CREDITS.—A telegram from Montreal says: "The St. Patrick's Society have sent invitations to the several Irish societies in Ontario and Quebec to co-operate with them on Monday evening, in petitioning the Government for the release of the Fenian prisoners at Kingston, on the grounds that the law has been unjustly violated and the general public being displayed by the Irish in Canada, during the Fenian troubles and the St. Patrick's Society in particular with the St. Patrick's Society in Montreal. The Society towards the Fenian prisoners and the Fenian trouble, who are now taking the Fenian trouble."

A New Ferry.—A new ferry, intended to connect the two banks of the river, is now being constructed. It is a small ferry, and is intended to be used for the purpose of carrying passengers and goods across the river.

Recreation for Farmers.

It is a well known fact that the farmer is the backbone of the nation, and that the success of the nation depends upon the success of the farmer. It is therefore, of the highest importance that the farmer should be able to enjoy the fruits of his labor, and that he should be able to spend his leisure hours in a pleasant and profitable manner. One of the best ways of doing this is by visiting the Algonquin Hotel, which is situated in the heart of the city, and which is one of the most comfortable and convenient places for the farmer to stay. Immigration.

The Hon. Mr. Justice Macdonald, in his report on the immigration of the year 1910, states that the number of immigrants who entered the Dominion in 1910 was 108,000, as compared with 100,000 in 1909. The report also states that the number of immigrants who entered the Dominion in 1910 was 108,000, as compared with 100,000 in 1909. The report also states that the number of immigrants who entered the Dominion in 1910 was 108,000, as compared with 100,000 in 1909.

From information already received, the Commissioner knows that various States and Territories are being organized in order to receive immigrants. The Commissioner also knows that various States and Territories are being organized in order to receive immigrants. The Commissioner also knows that various States and Territories are being organized in order to receive immigrants.

The Commissioner is also desirous of obtaining lists of improved and unimproved lands for sale, to be distributed to the various local Immigration Agencies, for the information of newly arrived immigrants.

The manner in which the Hon. Mr. Carson has gone about this immigration business shows that he understands what to do, and what to do to do. To render his leadership successful, the co-operation of his subordinates is necessary, and we hope the information he will be furnished in an early date as practicable.

Contemptible.

The St. Catharines Times considered it a contemptible act, no doubt, when it manufactured details of the arrival of the City of Boston. That paper, which we observe is quoted by another paper, has been a source of trouble to the City of Boston, and we are glad to learn that hereafter it will be treated as the police have given the notice to quit their haunts, which notice, it is hoped, will lead to the termination of some of them.

ONTARIO HALL.—Professor Stone had a crowded house last night. The large audience which has lately been in attendance to witness the clever performance of this gentleman from the Dominion of Wales, has been a source of pleasure to the public. His success here has been universal, and we understand that he is to leave tomorrow for the city of Toronto.

INTERNATIONAL RAILWAY.—Contract for box cars and platform cars was awarded by the Railway Commissioners yesterday, and their report submitted to the Privy Council. The contract for box cars was awarded to Hamilton & Co., of Toronto, and the contract for platform cars was awarded to the City of Toronto.

NEW ENTERPRISE.—A St. Catharines paper understands that a company of English and Canadian capitalists have been formed to construct a canal to connect the St. Lawrence River with the Great Lakes. The project is a source of interest to the public, and we understand that the project is a source of interest to the public.

REINTEGRATION.—The Dominion of Wales has been a source of interest to the public. The project is a source of interest to the public, and we understand that the project is a source of interest to the public.

THE HOUSE ON SATURDAY.

OTTAWA, March 26.

The speaker took the chair at 3. A number of petitions were presented.

Mr. Ryan presented the report of the Committee on the McNab land purchase, which concerns Sir John A. Macdonald and Edmund Dickson, Deputy Inspector General at the time of the purchase.

In answer to Mr. Holton, Sir Francis Clarke said the estimate would be down in a few days.

The Census Bill was considered in Committee and progress reported. The salary of the Commissioner was fixed at \$4 per day.

The Coasting Trade Bill, the Bill respecting the office of the Queen's Printer, and a Bill to facilitate the signing of Militia commissions were advanced a stage, when the House, on motion of Sir John A. Macdonald, adjourned out of respect to the memory of Thomas Kirkpatrick, of whose death he had just been informed by telegram.

RAILWAY BLOCKED.

(By Special Telegraph to the Daily Intelligence.)

TORONTO, March 25.

John Cunningham, brick builder here, is constructing boxes to carry troops to Red River in the spring.

On Saturday night a trunk belonging to Mr. Crane, of the theatre, was broken into and \$75 stolen therefrom. An actor named Moon is supposed to be the thief, as he has been missing since.

Another violent snow storm set in on Saturday night and continued all day yesterday. Where drifted it is eight to ten feet deep and two feet on a level. The roofs of several houses fell in from the weight of snow piled on them.

The Grand Trunk track is badly blocked. No trains left for the East to day; one is expected to get out tonight.

The Great Western is about on time, and the Northern again blocked up.

"Snow Storms" from the Hon. Bill Plint will appear tomorrow.

PRINCE-BEAT.—Lieutenant Colonel Callaghan, of the 14th (Kingston) Battalion is in town to-day.

ACQUITTAL OF PRINCE-BEAT.—A cable telegram announces the acquittal of Prince Beatrice, an event which, considering all the circumstances, was not altogether unlooked for.

OTTAWA HALL.—There was no performance given last night by Professor Moore, the rain causing an excellent damper over the spirit of amusement seekers.

PRINCE-BEAT.—The members of the County of Pontiac in the House of Commons.

SPRING GOODS.—By announcement in our advertising columns, it will be seen that Messrs. Robertson & Henry are receiving their stock of Spring and Summer goods, which they are open to inspection about the 1st of April.

OPENING OF NAVIGATION.—The steamer *Norwegian* left her wharves yesterday afternoon and made a trial trip a short distance into the lake to test her machinery &c. She is now in the east harbor waiting to receive a cargo of cattle, and was to leave Port Hope to-day for Charlottetown.

COUNTY OF PONTIAC.—The representation of the County of Pontiac in the House of Commons having become vacant by the death of Mr. Kirkpatrick, the people of that county are looking after a candidate. Amongst those spoken of are Mr. Callaghan, Mr. G. A. Kirkpatrick, son of the late member, Mr. Carruthers and Dr. Stewart.

PORTHOVEN.—It will be seen by our report of the Council proceedings of last night that the vote upon the proposed purchase of the Town's interest in the Gas Company has been postponed until the 7th April, in order to allow of discussion on the subject, as will be seen in our advertising columns.

INTERCOLONIAL RAILWAY.—The Intercolonial Railway Commissioners have concluded the contracts for sections Nos. 5, 6, and 7, and call for new tenders for the construction of the line to be completed by the 1st of July, 1871. They also advertise for tenders to construct four further sections, as will be seen in our advertising columns.

THE PRINCE EDWARD SHERIFF.—Mr. Abraham Orde, M. P., has been gazetted Sheriff of the County of Prince Edward. The appointment has for some time been expected and preparations for the election of a member to represent the County in the Ontario Legislative have been going on briskly for weeks past. Candidates are plentiful.

THE ROYAL CANADIAN RIFLES.—The Kingston News says: The intention to disband the Royal Canadian Rifles on the 31st March has been definitely conveyed to the Regiment, but as yet no official notice has been sent to the members and conditions on which disbandment may take place. The Regiment virtually ceased to exist after the 31st instant, and a number of officers will immediately go on half pay; but, nevertheless, it will be a work of time to break up the corps, and it is thought that at least two months will be required for the purpose.

RAILWAY ACCIDENT.—While the train from the East, engaged in clearing the road, was stuck in a snow-drift a short distance from Napesee yesterday evening, a young man named McLaughlin, a resident of Tyndwidge, who had gone from that station to see the novel sight of the road being cleared, ran into the van, on the train starting, and while looking out of the door to see the engines plowing their way through a snow-drift, the door struck against the snowbank, and was forced down with such violence as to dash out his brains. He lingered for a short time, when death put an end to his sufferings.

POLICE COURT.—(Before A. Diamond, Esq., Police Magistrate.)

TUESDAY, MARCH 28th.

AGGRAVATED ASSAULT.

James Barrett charged Sidney Savage with the commission of an aggravated assault on his person, severely beating him. The offence complained of was committed on Saturday night last, when, so far as the evidence goes, the complainant was engaged in protecting his brother, who had been set upon by the accused. To allow a further witness being procured, the case was laid over till tomorrow. Savage being liberated on bail.

PAROLE DISCHARGE.—The long obnoxious fashion of wearing pinstriped trousers with ruffles trimming

The Gas Question.

The Town Council has acted wisely in postponing the consideration of the Gas question, and of having a public meeting where the whole question can be thoroughly ventilated. If the stock of the Company is depreciated to the extent represented, it must be comparatively valueless to the Corporation, and the offer made in that case a good one. It is not contended by many that the Company having paid expenses for the last few years, is not in such a low condition as to make its stock worth only ten cents on the dollar. It has paid expenses, and the consumption of gas is annually increasing, and if there be a prospect of a still greater increase, the town cannot afford a very ally part in disposing of its stock and of a controlling interest in the Company for a mere bagatelle.

It is said there are parties willing to come forward and offer double and even treble the amount proposed for the Town's share of the Company. If this be the case, it is but fair to give them a chance, and therefore we repeat the Council have acted wisely in postponing the consideration of the question.

The Storm and the Railway.

The track is now clear, both east and west, after almost incredible exertions on the part of the Company. The line was finally cleared about midnight. Yesterday morning a snow-plough was started from here with two engines and a large force of men, and succeeded in opening the road to Toronto. About the same time three engines, with a tool car and a number of laborers, were despatched from Kingston, reaching Napesee about midnight, leaving with drifts 10 to 14 feet deep, through which, from the heavy nature of the snow, it was found impossible to force a plough, and in many of the drifts the engines had to be dug out. Six locomotives were encountered that two more engines had to be procured from Kingston to assist in forcing their way through. At 9 o'clock two engines with a gang of men, started from Belleville, and made good headway until within two miles of Shawville, where some heavy drifts were encountered, through which, after three hours of hard work, they succeeded in forcing their way to Shawville station. After wooding up, they started for Tyndwidge, where the train from Kingston was met, and the track was then cleared through from Toronto to Kingston. The trains to-day were running nearly on time.

Parliament Yesterday.

Mr. Brown presented the report of the Committee on Private Bills, on the Bill to enable the town of Belleville to impose harbor duties.

The Bill respecting toll upon vessels in the harbor in Collingwood having passed through the Committee of the House, a discussion was raised as to the right of Parliament to legislate.

Sir John A. Macdonald expressed a doubt whether any harbor, not provincial works before the Confederation, were now under the Dominion jurisdiction.

Hon. J. A. Macdonald doubted whether the Local Governments could authorize any taxes on shipping.

A debate took place upon the Great Western Amendment Bill, it being argued that the motion did not cover the Bill, as amended. The Speaker ruled that the Bill must be taken to the Standing Order Committee to see if the notice ordered it.

Mr. Wright, of Ottawa, Mr. Shanly and Mr. Grant spoke earnestly and at some length in favor of the Ottawa Ship Canal.

A general debate followed on the canal policy of the country.

Mr. Blair's resolutions, respecting the change of the terms of Confederation, were postponed until Wednesday.

After some conversational debate about the progress of public business, the House adjourned.

Latest from Red River.

JOINT MARITAL OF SCOTT—THE SENTENCE CARRIED OUT—PRESENT QUARTER OF THE SETTLEMENT—DELIBERATE MURDER STARTED—THEY WAITED THE ARRIVAL OF BISHOP TACHE.

St. Paul, Minn., March 28.—The following letter, written at Pembina on the 7th, giving the circumstances of the shooting of Scott, is published. At the time about midwinter, one Scott, a Canadian, was of the party. At the time Major Boulton and Dr. Scully were camped at the Scotch Church, Scott was shot by Boulton and Dr. Scully, the same evening of his release. A few days before Major Boulton had surrounded the said Scott as he was about to enter the house. In due time a Court Martial was convened. Scott was tried, found guilty, and on the 4th inst. sent in front of Fort Gary.

All is now quiet in the settlement. A letter from Fort Gary says the Delegation to the Convention would not start until the arrival of Bishop Tache in the Settlement.

The *Baltimore News* writes:—It would seem from a Halifax dispatch of yesterday that voting by ballot is hereafter to obtain in that Province. It is to be effected, introduced by Mr. Morrison, and yesterday discussed in the Committee, and supported by the Government and majority.

At 21 and 7 again it. It provides for colored tickets to be given by the presiding officer only in the polling booth.

Town Council.

MONDAY, MARCH 28, 1870.

Pursuant to adjournment from last session, the Council met in the Town Hall at half-past seven o'clock p.m.

PRESIDENT.—His Worship the Mayor, Messrs. Kelso, Smith, Beckett, Vandusen, Tannahill, Holden and Patterson.

The minutes of last meeting were read and approved.

A number of accounts were read and referred to the Finance Committee.

In the case of the Town's Debt, for the engagement of the Market By-law, a rate was read, by which proceedings were ordered to be stayed.

FINANCE AND MEANS.

The Council went into Committee of the Whole on Ways and Means. Mr. Smith in the chair.

The report of the Finance Committee was passed.

On the motion for the adoption of the report of the Harbor and Town Property Committee, Mr. Patterson said he was opposed to the payment of claims to be made by Mr. Brown, as he did not think that gentleman had good grounds for claim against the Town.

Mr. Kelso explained that Mr. Brown had brought the claim, from Rome County, New York, by order of the then Chairman of the Harbor and Town Property Committee, on an agreement that the Town should pay the expense of bringing it here, pay 10 per cent on interest, and part of the working expenses. Under this arrangement had been come to in Buffalo had tendered to perform the work as interest, and at all events their applicants had been considered more satisfactory, and their tender was accepted. Mr. Brown now said for the cost of bringing his claim here, and he (Mr. Kelso) did not think it worth while to put the case into the Court of Queen's Bench, where heavy costs would necessarily be incurred.

Mr. Kelso would like the Clerk to read the report of the Committee submitted to the Council on the subject at that time. Mr. Brown had brought the drainage to Belleville in good faith, he had gone to the expense of the then Chairman of the Harbor and Town Property Committee, and not being aware of the action subsequently taken by the Council. It was a question whether or not the Town was bound to pay, but Mr. Brown had been exposed by bringing his drainage here, besides losing an opportunity for selling it advantageously. He was opposed to its being brought here in the first place, as he did not consider it competent to perform the work required. He thought it better to compromise, as it was not wise to risk a law suit on so small a matter.

The Mayor said that by virtue of the report of the Harbor and Town Property Committee, Mr. Brown had been induced to bring his drainage over here, in doing which he had incurred expense. He (the Mayor) had taken the opinion of Hon. L. Wallbridge on the subject, and that gentleman was of opinion that there were legal grounds for the drainage at the suit of Mr. Brown. It would be better to pay the sum asked than to carry the case into Court. As counsel for the Town in the matter, he would ask to be excused from voting.

Mr. Vandusen would like to know the nature of the resolution before called upon to vote.

Mr. Waters thought the then Chairman of the Harbor and Town Property Committee ought to be responsible for the amount.

Mr. Tannahill considered that, in justice and honor, the Council ought to pay the amount. As Mr. Brown had acted honestly in good faith, the Chairman of the Committee at that time had gone too far.

Mr. Patterson said to adopt the recommendation of the Committee would be to establish a dangerous precedent. If the claim was just, then pay it. As he did not consider it just he would vote against it, and would in consequence be laid over till the next meeting of Council.

Mr. Holden said it would then be too late to carry the case into Court. He was of opinion that the claim should be paid. As a member of the firm to which Mr. Brown had entrusted his interests in the case, he asked to be excused from voting.

The amendments were then put and lost. Mr. Patterson voted in favor of the motion. The original motion was also lost. Messrs. Kelso, Waters and Tannahill voted for and against. The Chairman recorded the vote with the yeas, and declared the motion for the adoption of the report lost.

The Committee rose and reported. The Finance Committee's report was adopted.

On the motion for the adoption of the case relating to the Harbor and Town Property Committee.

Mr. Kelso moved, seconded by Mr. Tannahill, that the report of the Committee on Ways and Means be referred back to the Committee, with instructions to inquire the report of the Harbor and Town Property Committee.

The motion was lost on the following vote:—Yeas—Messrs. Tannahill, Kelso and Waters—3.

Nays—Messrs. Patterson, Smith, Beckett and Vandusen—4.

The report was then adopted.

THIS GAS QUESTION.

Mr. Holden, with much reference to the proposition to purchase the interest of the Gas Company, has been making up to the position of the matter. Many were unfortunately misled, as a result of the position of the matter. Many were unfortunately misled, as a result of the position of the matter. Many were unfortunately misled, as a result of the position of the matter.

The time for making the vote of the rate-payers upon the proposition respecting the Gas Company, was extended until the 7th day of April next, at the same place and hours, and that, with a view of information being given to the rate-payers concerning the proposition and the affairs of the Company generally, a public meeting of the rate-payers be held for Monday evening the 4th April. That posters be issued by the Clerk as soon as possible announcing the postponement of the vote.

Mr. Tannahill did not see the necessity of postponing the matter so long as was proposed by this resolution. There were always two parties to a bargain, and it was not the duty of the Town to be as well as the seller, and in this case the purchaser was the Town. He had heard some wild and improbable rumors, which showed the ignorance generally prevailing on the subject.

Mr. Holden said one object of the resolution was to take away the idea that, to adopt a regular expression, the Council wished to "punch things through."

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

that they have good pinet points. A stove of one make will drive oak as easily as others into pine, and endure leaving the force brought against it.

LAY FEVER.—Few of our readers are without some experience, either in them selves or through their friends, of the distressing ailment known as "lay fever," or "nose cold," which usually appears, year after year, in the same persons at about the same period of the year, and season. An eminent microscopist, troubled with this complaint, has recently announced his belief that it is caused by the development, at the season indicated, of vibrios, peculiar form of low organic life we know to microscopists. They appear to him to be developed in the cavities and sinuses connected with the nose, although not in the blood, since its ordinary section did not contain them, and the sinuses were only found when the blood was

or blowing of the nose, took place. If this be the fact, it is quite probable that the true cure for the disease is to be found in the smudging up of the vapor of carbolic acid; this substance having the property of destroying the vitality of microscopic growths, and preventing their multiplication.

ACTION OF SUN'S RAYS ON FLAME.—It has been a favorite dogma from almost time immemorial that the light of the sun will extinguish or materially deaden a burning flame. A series of careful experiments recently prosecuted in England by Mr.

A new kind of metal roofing has been introduced in France. The covering, instead of being continuous, like corrugated iron, zinc, or lead, is composed of separate tiles, formed of galvanized iron, and shaped something like our ordinary pantiles, but susceptible, of course, of various forms and colors.

Which was Which.

Persons accustomed to writing narrative often experience the difficulty of using pronouns, so that there shall be no mistake as to the noun for which they stand. Speaking of two persons of the same sex there is continual tendency to confusion. This is ludicrously illustrated in the following account of the examination by judge of a witness in a case of assault and battery. Said the witness.

"Therras was Mike and the dog, there, yer honour; so be flog at me very savage—"
 Judge—"Who? Mike?"
 Witness—"No, the dog yer honour. And I says to him—"
 Judge—"To whom? the dog?"
 Witness—"To Mike, yer honour. Got away wid her!—and I just hauled off and bit him."
 Judge—"Hit Mike?"
 Witness—"No, the dog, yer honour, so he made a rush for me."
 Judge—"Who, the dog?"
 Witness—"Mike, yer honour. And I says

"Wid a stone throwed it at him, and it rolled
 him over and over."
 Judge—"Threw a stone at Mike!"
 Witness—"At the dog, yer honor. And he
 got up and hit me again."
 Judge—"The dog?"
 Witness—"No, Mike. And wid that he
 ran off."
 Judge—"Mike?"
 Witness—"No, the dog. And then he
 came back, and got me down, yer honor."
 Judge—"The dog came back at you?"
 Witness—"No, Mike, yer honor, and he
 isn't hurt any at all."
 Judge—"Who isn't hurt?"
 Witness—"The dog, yer honor."

The Coming Bonnet.

Some hints about coming bunnets are gathering in advance. They are to extend higher above the head than ever, and are to have a sort of crown to cover part of the back hair now worn so low. We thought bunnets towered high enough already, but those who have seen the new ones in preparation say those of the winter look as though they'd been set upon and crushed.

The material to be introduced for bunnets is *claret green*, and the flowers imported are

of the pale colors in which that crasp is made or in deep, rich colors, forming strong contrasts with it.

First among the new tints—they are too delicate to be called colors—is a pale yellow-green called Capoul, after the farmer who wears a costume of this shade in "Vart vart." Next is a fine rose, a faint salmon-pink that the sprigged elude; chain of Bush color, soufflé or sulphur, poussette or dust color, and more than anything else, cerise bleached half worn last summer.

Flowers will be worn in profusion; they are mounted in clusters, without much foliage, and as we report every season, there are more roses than anything else. Some of these are arranged in new and pretty contrasts—a Capoul rose of the finest orange on the stem with others of violet hue, or
